

## 6.5 Physical facilities for research

---

Procedures for physical facilities for research programmes refer to specifications for the programme's resource requirements (required as part of the research programme and intrinsic to it) for each research student. Such requirements are identified at an early stage. Students have access to these resources and property including intellectual property, premises, IT resources, technical and administration support, materials, consumables and both specific and basic equipment and accommodation conducive to research (including write-up of thesis).

If aspects of the programme are supported or provided at more than one location, each location independently meets the location-specific resource requirements, and procedures are in place for use of external off-site resources in the context of partner collaborations.
